Silicone Sponge is an excellent material for uses requiring a soft, compressible material and particularly suited for high temperature applications.

There is a full range of standard colours available The sponge is predominately-closed cell with low water absorption.

Sponge sheeting is available in standard rolls 1m wide, other widths can be produced upon request.

Red Silicone Sponge Strip Rough Surface

Temperature: -30~180°C

Hardness: 20 Shore A

Specific Gravity: 0.7 g/cm3

Tensile strength: 220 KPA

Permanent set: 3% 100%

Modulus: 300Kpa

Tear Strength: 6.5KN/m

Elongation: 280%
